

EPCM.expert is pleased to share the results obtained with 3YO Technology

Executive Summary:

International Biodegradability Certification Highlights

Type:
Tipologia

Anti-adhesive, lubricant, protective, vegetable-based detergent liquid formulation for industrial and DIY processes
Formulazione liquida a base vegetale detergente, antiadesiva, lubrificante, protettiva, per lavorazioni industriali e fai da te

Results in compliance with OECD 301B

PASS

PASS

The biological degradation was calculated from:

$$\% \text{ Degradation} = \frac{mg \text{ CO}_2 \text{ cumulative}_{\text{SAMPLE}} - mg \text{ CO}_2 \text{ cumulative}_{\text{BLANK}}}{Th\text{CO}_2 * mg \text{ of sample added}} * 100$$

Finishing analysis / Fine analisi:

26/06/2024

ANNEX 'BIO – OECD 301B' TO TEST REPORT 24/000400626

Results in compliance with OECD 301

PASS

PASS

10. CONCLUSION

under the test condition applied, the test substance is considered **READY BIODEGRADABLE.**
